

Training Order
Part 2 of 3
ICOMMUNICATION
(Part 1 Move / Part 3 Shoot)

Greetings my fellow patriots! This notice is designed to prepare you for an upcoming class on communication. This class is introductory in nature.

In an effort to streamline and make learning this material as efficient as possible you have been provided with some materials. These are yours to keep and should be made part of your material that you will bring to meetings and FIELD TRAINING EXCERISES, hereafter ftx.

Please make sure you have the following:

- 1) 3 ring binder
- 2) 1 pack ruled 3 hole paper
- 3) 1 pack graph paper
- 4) 1 ruler
- 5) 1 pack #2 pencils
- 6) Pre printed study material

Words have meaning. From the time we are born we learn what different words mean. Later on we learn how to combine them to communicate more complex thoughts. As time goes on we learn to read and write.

In the past humans have used a variety of methods to communicate. From guttural noise, to smoke signals, on to birds of all kinds, to flashes of lights and finally wired and wireless gadgets.

Today you will learn how to obtain your Amateur Radio Technician License. I will be using a Baeofang analog radio for demonstration purposes.

You all should have received a study package. It contains links to videos and websites which contain the basic knowledge for you to pass your exam and obtain your license.
