

Here is the sample content of a Brevity Matrix.

Copy and paste individual phrases into different sections of the spreadsheet. On the included spreadsheet on the bottom left sheet numbers/pages are prefilled out with the basic information. Use this information or your own to fill out those pages. Do not have the same information in the same spot every page. To do so your matrix will quickly be deciphered. Make it random, change the content as often as you can. Change the Matrix every 24 hours to throw off any enemy you may have.

Security: Red, Yellow, White, Hold, Tight, Free, Dynamite, Lookout, Snowman, Send Report

Logistic: Class 1 needed, Class 3 needed, Class V needed, Class IX needed, Cancel Resupply, ___ rounds Remaining, Request Immediate Resupply, Where is Field Trains, Combat Field Trains at __, Located __, CACHE Location __,
